

de oraculorum applicatione ad Christum, in quo expediendo vix
quemquam habere vel videre potui, cujus vestigia imitarem: ²⁶⁷
veteres Graeci et Latini sic pedem transeant, quoties ea res exequenda
fuit: quasi nihil haberent Judaei et similes hostes Evangelii
qui allegationes Apostolicas eluderent. Recentiores non pauca
sudarunt quidem multa, sed plerumque nodum vel seuerant, ²⁶⁸
certe astrinxerunt magis. Si quod volui, consecutus non sum
id saltem spero me effecturum, ut eruditiores ad fusionem hujus
argumenti tractationem excitem, alius Mercurij usum aliquo
praestem. D. Theodoro Beza Ecclesiasta Genevensi

Salutem à Domino Jesu. Cum senile. iudicium tuum, Pater
 in Christo venerande, Ecclesia merito suspiciat, et omnes pluri-
 mi faciant, nec ego immerito laboris, liquet in Calvino Ortho-
 doxo scribendo hausi hunc fructum magnificatio, quod gravissi-
 mo calculo tuo eam comprobare non dubitasti, tanquam
 magnam, sanctam, et necessariam tuenda veritati operan-
 tis, me navatam. Faxit celestis Pater, ut votis nostris suc-
 cessu cum uberrimo Ecclesie fructu respondeat, et aliquando
 ab infaustris his certaminib; respirare; ad meliorem verò
 magis auspiciata utilioraq; studium nostram traducere nobis
 liceat: sed nondum hoc Furia iste patiuntur. Jam enim Ad-
 versarij Pseudo-Calvinum suum vernaculo sermone in
 vulgus disseminavit, nempe ut suis calumniis nostros Germanos
 penitus imbuat, et fortius in veritatem concitet. Hactenus
 enim stentores illi passim in cathedris totas conciones de
 novo hoc Judaismo deblaterant, Latina Germanicè red-
 dentes. Quid nunc doctos pariter et indoctos facturos putamus?
 Furat sanè et fascinet suos, ut volent satan; nunquam effi-
 ciet, ut mendacium fiat veritas, et ad illud aures advertant ii,
