Dear Professor Erman,

Here with ~~two more~~ ^{another} articles for you. I also enclose a reply from the Postal Authorities with regard to the registered packet I sent you. I hope after all that you received it; or perhaps this will enable you to get it now.

I must hope to get to Abydos for a few days this coming winter. I am working on the Osirian festivals of the 4th month of the 4th Season at Denderah.

I wonder whether the Akademie has photographs of those Texts & if so what the look of them is. ^{I should be most grateful if you would tell me} Also, what is the price of the photographs of Philae? I am afraid they will be too high for me! But of course they are invaluable to possess!!

I hope Berlin is settling down now and that you will have no more serious troubles. They must ~~not~~ ^{must} prevent ^{interfere} with your work and will find it difficult to get, work must be very difficult also.

Professor Sether told me that at Göttingen they have been cut off a whole week from the outer world by the strike.

Have I sent you my article on $\frac{\Omega}{\Delta}$ "linguent" for the preheat? ^{Jours very truly}
If not I will send it to you. A. M. Blackman.

P.T.O.

Many thanks for your card. I have got Vol II of Mein & have ordered
Vol. I from the E.E.S. As soon as it comes I will send it
with Vol. II to Prof. Schäfer at the Königlichen Museum,
Berlin, in exchange
for frakt. u. Danksteine des m.R., Bd. 2 and 4.
Very many thanks for making the suggestion to me.
