The University of Chicago

The Oriental Institute

OFFICE OF THE DIRECTOR

CAIRO. February 18th, 1925.

Prof. Dr. Adolf Erman,
Peter Lenne-Strassa, 36,
Berlin - Dahlem,
Germany.

My dear friend,

It has been a great pleasure to have your letter of the 26th of January, which reached me almost by the same mail as one from New York, both assuring me that the funds had been remitted and received in accordance with my hopes.

As I wrote to you from Chicago I had very much hoped that this contribution to the Dictionary would reach you in time to brighten your seventieth Birthday, but I was unable to bring it about early enough to accomplish this object. In any case, you will know from my letter from home and from these few lines that I was thinking about you with great regard and affection on your seventieth Birthday and with warm wishes that we may be able to congratulate you on the return of your Birthday for many years to come.

I am swinging like a pendulum between Luxor and Cairo, for in the absence of Gardiner, I am obliged to look after the Coffin Texts in Cairo and the Medinet Habu Texts in Luxor.

Frances is in Luxor where she enjoys very much living in our new house. I am enclosing you two views which will show you what it is like.

Sethe and Schaefer arrived a few days ago and are about to leave on their Dahabeah journey. We have had some very pleasant talks of old days and they have told me all about the delightful celebration of your seventieth birthday, all of which made me deeply regret that I could not have been present myself.

I earnestly hope that Kaethe is now fully recovered and is feeling quite herself again. Frances

Chicago, Illinois, February 1951

Dear Mr. [Name],

I have just received your letter of the 15th and am glad to hear that you are interested in the work of the Department of Chemistry at the University of Chicago.

At present, we are carrying out a program of research in the field of [Topic] and I am sure that you will find this work of interest.

I am sure that you will find this work of interest and I am sure that you will find this work of interest.

I am sure that you will find this work of interest and I am sure that you will find this work of interest.

I am sure that you will find this work of interest and I am sure that you will find this work of interest.

I am sure that you will find this work of interest and I am sure that you will find this work of interest.

I am sure that you will find this work of interest and I am sure that you will find this work of interest.

is, I think, writing to her from Luxor.

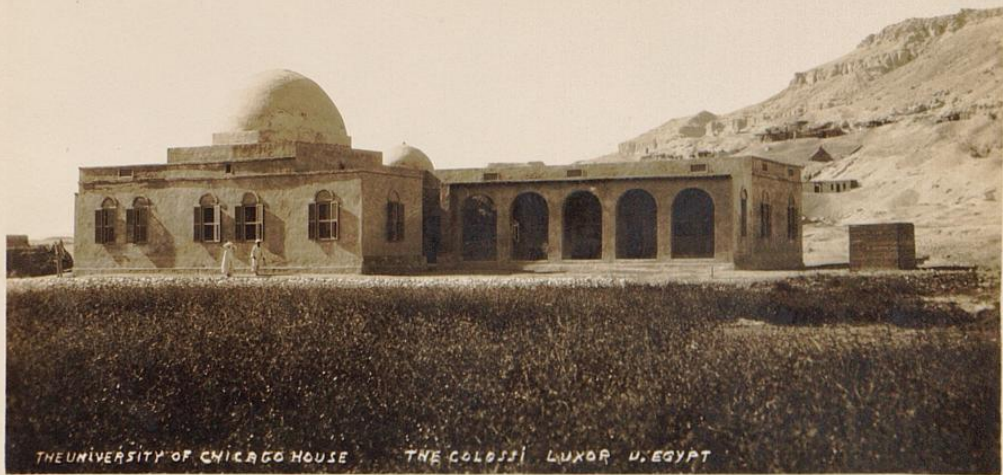

Believe me in affectionate regard,

Always your old friend,

James A. Breasted
