Bremen

London.

21. XII. 98.

My dear Brnaa.

I sent, a few days ago, a book to Peter, with my good wishes for Christmas & the New Year - I am only afraid, that I have so far lost count of his age now, that he may already be too old for

childish literature! But  
I hope he may appreciate  
the drawings. They are by  
an artist who had a  
great reputation here, in  
his particular genre,  
& whose work has, since  
his death, been republished.

With the book go our best  
wishes also to Frau Emma  
& yourself. I hope you  
are all well & that your  
eyes are not troubling  
you too much at present?

We are going to Rome after  
Christmas. My wife will remain  
there for a month or so, with  
some relations, but I shall  
come back after a fortnight.

I hope to see the Bohairic  
MSS. at the Vatican & some of  
those at the Propaganda. Also  
some Arabic MSS. which we  
have not here & which I  
need for my "Severus".

I fear you will not be  
pleased with my note on  
A  $\square$   $\square$   $\square$  ENW in the next  
Zeitschrift; for you will

see that I did not send you  
enough of the passage where  
the word occurs. In the  
next sentence, the usual  
word for "key"  $\epsilon\gamma\omega\gamma\tau$ ,  
also occurs. Therefore  $\epsilon\gamma\omega$   
must mean something a little  
different.

With our best wishes again,

I am, for ever

W. B. Brown
