My dear Professor Esmann

In reply to the matter of
the Keneh papyrus raised by
Dr. Bonasted, let me address a
brief note to you. I need hardly
say that for me to print any-
thing about the manuscript
before the Museum has published
it, would be a flagrant improp-
riety, and you need have no
anxiety as to my doing anything
of the sort. - Moreover, the
exceedingly generous and
considerate treatment given
me in my stay at the Museum
in 1898-9, especially the great kind-

Handwritten text, likely bleed-through from the reverse side of the page. The text is mirrored and difficult to decipher due to the bleed-through effect.

ness of Dr. Krebs, put me
under relations of peculiar obliga-
tion to the Museum, and it would
be doubly ungracious for me to
take any advantage of the
Museum management.

I hope you fully understood
that my own work on the papyrus
was done at M. Maspero's sug-
gestion, at a time when its
purchase by the Leipzig Museum
was regarded as practically set-
tled. - Otherwise, I should not have
ventured to touch it.

Always most truly

Yours

(Edgar) Goodspeed
