THIS SIDE FOR THE ADDRESS

Herrn. Professor Erman

Steglitz

Germany.

12 Northam Road. Oxford. Oct. 27th 06.

It has been pointed out to me that the illustration - no. 67 on page 75 of "Ägyptische Religion" is probably Anat, as proved by stela no. 191. in the British Museum. May I call it - Anat in the English Edition - or do you prefer to call it - Anatete.

I imagine you have no ink & look at the proofs of the English translation?

With best greetings from us both

It has been pointed out to me that the illustration - no. 61 on page 75 of Ägyptische Religion is probably Anet, as proved by stela no. 191. in the British Museum. May I call it Anet in the English edition - or do you prefer to call it Astarte.

I imagine you have no wish to look at the proofs of the English translation?

With best greetings from us both
