Dear Professor Buman,

L.D. is on its way! A shipping agent sent me a very illegible post card giving notice of 1 Kst Bilderwerk 160kg and after much puzzling the truth dawned upon me. It will no doubt arrive in a day or two; meanwhile as your post card leaves no doubt about it I may thank you heartily for your goodness in suggesting and supporting my application, so that finally I shall have become the happy recipient of the great work. I shall do my best to render myself worthy of it: at any rate it will help on the work of the ~~Society~~ Society which I fully believe will do a really important work if it succeeds financially. There are

excellent accounts again from Newberry.

He has gone a little out of his district  
to visit Petrie's excavations in the  
town of Tell el Amarna. Afterwards,  
he went to the hills behind and found  
what must be the [ ] of Unq etc etc  
an alabaster quarry <sup>some miles</sup>  
{ with cartouches of early kings, behind  
the southern end of Tell el Amarna.

A few proofs have come from the  
lithographers of Beni Hasan inscriptions,  
and when I have looked them through  
I will send ~~the~~ a set to you, but the  
bulk must wait till Newberry returns.

Yours very truly

F. L. Griffith.

I will take care to write to the Minister, as  
you kindly suggest.
