Dear Friend,

I write a line to tell you that Oxford is establishing a "Readership" in Egyptology, and that I have been nominated for it.

It seems to be considered a settled affair, but as a matter of fact it is not quite concluded. I shall go to Oxford next week and learn more about it. It will mean residence in Oxford for a good part of each year.

Herbert

Thompson is making splendid progress.

He has deciphered a great deal of the
"Secret" writing of the Gnostics and finds

words in Greek and Coptic e. g.

Bah a Bawh "Faba". This time last year he was hardly
~~Bah a Bawh~~ the plant name.

allowed to use his eyes at all; now he can read
(demitai!) all day long if he likes.

em yours

R. H. C. Giffiths.
