OFFICE OF THE KEEPERS.

THE EGYPTIAN MUSEUM,
CAIRO.

7. Nov., 1928.

Dear Professor Erman,

Please accept my most hearty thanks for so kindly sending me the latest edition of your Grammatik, as well as the offprint of Zur ägyptischen Wortforschung, IV. It has been a great pleasure to me to read the Grammatik, and to note the many changes you have made. I need not say that I am very gratified to note that you have been able to make use of some of my work, and am very proud that you should associate my name with those of Gardiner and Sethe in the Preface.

I notice that in 532b, Anm., you point out that r ntt is the origin of the Coptic Perf. II; this has been my view for a long time, but I have never written about it. It is curious that there seems to be no trace of this in demotic.

I congratulate you on this admirable work, and also on the steady progress of the Wörterbuch.

Believe me, dear Professor Erman,

Yours sincerely,

Battiscombe Gunn
