Dear Sir

I have been writing
a "Sketch of the History of Egypt"
from the earliest times to the
present day & all the different
periods have been looked
over by those who have written
more fully on the subjects.
Dr Petrie gave me much useful
information & Fr. DuRoi
Lanc. Paul, Milne & others
have all looked over my

M. J. & have been most
kind with regard to it.
As I have made a short
chapter on the "Ancient
People" principally taken
from your book "Life in
Ancient Egypt." & do not
like to publish it without
your consent, I have taken
the liberty to send you a
typew carbon copy & shall

In so very much obliged if
you will look over it, &
criticise ~~it~~ correct it for me.
Intention is to be my
Publication & the book is now
in his hands. so that any
additions can easily be
made. Will you return
the M. S. to me here when
he shall remain for about
3 weeks longer.

Yours very truly
Margaret Ankerst
of Hackney

COPTIC PRIEST WITH TWO ACOLYTES.
GRAIN BOATS ON THE NILE AT SUNSET.

THE OPINIONS OF THE PRESS

“The history of the Ancient Monarchy of Egypt . . . is an excellent example of the art of condensation. The history of the country under the Ptolemies, the Romans, and Mohammedan rule is more briefly, yet not less skilfully, set forth. From Napoleon’s invasion to the present British occupation . . . has all the pertinency and point that should mark a sketch.”—*Westminster Gazette*.

“It is not too much to say that Egypt . . . has never been brought home to the minds of English readers so completely and so vividly as in these pages. . . . It is altogether a unique work—not a mere historical summary, but a living and picturesque narrative, a valuable and trustworthy handbook of the history of Egypt from the earliest times to the present day.”—*Birmingham Daily Post*.

“I should suggest that those going to Egypt this winter . . . should read the volume through now. . . . They will find it clear and admirably adapted to their needs.”—*Gentlewoman*.

“The compiler has arranged an admirable map, giving the Egyptian, Classical, Biblical, Arabic, and modern names of places, marked in different types and in two colours.”—*Guardian*.

“. . . An excellent compilation of the history of Egypt past and present, drawn from the best authorities, and coloured by the author’s own impressions of the country. . . . To render her work more practically useful to tourists . . . the author has prepared for it an index of 50 closely printed pages.”—*Morning Post*.

“This beautifully got up work is essentially what the title claims for it. . . . Of histories of the empire of Nileland . . . the majority have been either too learned or too bulky for the general reader. This work . . . is one, however, which will supply all that a reader interested in the subject will require. . . . One of the chief values of the work will be found in the beautiful illustrations, which bring the picturesque nature of the Nile Valley vividly before us.”—*Daily Chronicle*.

“Unquestionably the best history of Egypt that has yet been published within the space of one volume.”—*Outlook*.

THE OPINIONS OF THE PRESS—*Continued*

"Everyone who has made the Nile voyage has felt the want of such a volume as this. . . . Lady Amherst . . . has impartially told us the longest continuous history in the world in a style the chief characteristic of which is the absence of adjectives, resulting in a simple directness much to be admired."—*Pall Mall*.

"By all who are already interested in Egyptology, as well as by many who have not hitherto followed that fascinating study, Lady Amherst of Hackney will be cordially thanked for the volume, not less comprehensive than able and erudite. . . . Her work as a whole, with its instructive appendices, its excellent maps, and its fine series of illustrations, is undoubtedly destined to take its place as a text-book of its subject. . . ."—*World*.

"A remarkably interesting and well-informed survey of Egyptian History. . . . It is no holiday manual or hasty compilation; on the contrary, it is a work written with an amount of scientific exactness of which any scholar might be proud. . . . It conquers the reader's attention at the start, and keeps it to the close."—*Standard*.

"She [Lady Amherst] writes a pleasant, simple style, and has a real genius for quiet narrative. Her book is interesting, for much that she has to say is new."—*Daily News*.

"Lady Amherst has also arranged her facts well, and seems to have taken great pains to verify them, in which task she has been assisted . . . by all the leading Egyptologists of the day."—*Athenæum*.

"Seldom has a more thoroughgoing and instructive popularisation of the results of recondite labours of research been given to the world."—*Scotsman*.

"The book will be found invaluable by visitors who are prepared to take an intelligent interest in the land and the people. . . . A wonderful concentration of facts . . . a very valuable addition to present-day literature."—*Liverpool Courier*.

"Lady Amherst knows Egypt well, and the book is as admirable and readable a compression into one volume as could be wished."—*Rapid Review*.
