THE ATHENÆUM,

PALL MALL. S.W.

Jan 30. 1902

My dear Eoman

The information which was sent
respecting the death of your

Grandmother gave me another
evidence of true friendship

You believed that I should be
interested in this event of your
family & you were perfectly right.

MUSEUM THE
SALL WALL S
I cannot remember that you
ever told me of the prolonged
life of your beloved relative
but every year usually increases
the affection toward such, & when
the departure occurs the keener
grief is felt because of the length
of time. My own Mother still
lives & writes to me every week
though she has passed her 87th

birth day, therefore I feel additional sympathy with you at your present bereavement. Accept this slight expression of my feeling with you all, coupled with the hope that each year will find us true friends.

I dined with Cuen on Tuesday & he said that he had heard from you, but that the eyes were not much better, he remarked also that you said nothing about the Museum - He shewed me Schmidts

brochure on Budge's Platten which
seems rather severe - But I am
not surprised, especially after
reading the Epiphany Services
in which he has 'gone out of his
way' (as we say) to make mistakes
Professor Margolin who I saw
at Oxford on Sunday said that
Budge's Syriac publications were
excellent - His Egyptian History
is announced - He told me about it
some time ago, describing it as
a vacation-work, done while resting
his eyes - With my kindest greetings
to you all I am ever your G. Horner
