PERNELL
GRAFTON, MASS.

August 12, 1932

Dear Professor Erman:

The "Alma Eagen Hyatt Foundation" of New York is including in its publications a quarterly to be called "Egyptian Religion", which will be devoted to studies of important ancient Egyptian religious problems. The format will be large in order to facilitate the publication of important drawings and photographs. But the articles are to be very brief and technical. They have asked me to be the editor.

I am, therefore, appealing to you, as an expert Egyptologist to be good enough to co-operate with us by sending to me at your leisure a short critical article or note for our first or second issue. The periodical will begin to appear in March of 1933. You may choose any subject you wish, but it must be in the field of ancient Egyptian religion.

If we are successful in this venture the Foundation may be induced to interest itself more extensively in ancient Egyptian matters.

Hoping you can do this for us,

Sincerely yours,

Samuel A. B. Mercer

M:W.

P.S. I know what a very busy man you are, but if you could send us only a couple of paragraphs it would mean so much to a new journal on Egyptology. Please do your best for us.

S. A. B. M.
