Dear Sir,

I have for some time past been engaged in collecting examples of the Ivory Wands engraved with figures of monstrous animals which are to be found in the principal Museums: and in the May number of our Proceedings, I hope to publish reproductions of more than 30 which have been kindly communicated to me by the keepers of the Louvre, the Khasr-el-Nil, the British and the Ashmolean Museums. In your excellent book "Die Ägyptische Religion", which I have just read with much interest, I see one figured on p. 130, which is new to me. I shall be extremely obliged if you can see your way to give me communication of this and of any other objects of the same kind that you may have in Berlin. If you would allow the draftsman of the Museum to make

my sketches of them in ink or pencil, it would be the best for my purpose; but, failing this, a good photograph would do nearly as well. I shall, of course, be happy in any event to pay all charges and expenses.

Hoping for a favourable answer from you

I am

Very faithfully yours

F. Legge

to the Herr Professor

Dr. Adolf Erman
