

Autogr. XVII, 3a

Princeton

Jan. 6 1896

Professor Doctor Vaithinger:
Dear Sir:

Your notice with reference
to the "Kantstudien" and
request for a Beitrag has
been duly received.

I have written to Prof. Creighton
for further information, and
have offered to give an
Article on Kant's Religious
Philosophy which will give
his views as contained
in the Religion innerhalb
der Grenzen der bloßen
Vernunft and then
some points of criticism.
This I would endeavor
to send by the middle of

March.

I have also received your
postal asking for a copy
of my doctor's dissertation
which I will send immediately.

When it was written I had
not knowledge enough of
German to use the original
fully and had to use
the help of translations
but since then I have
studied a year in

Germany so that in
my article I will be
able to get at Kant's
ideas more accurately
as I use the original!

If such an article will be satisfactory
may I presume to hope for a reply
from you?

Respectfully

C. W. Stodges
