My dear Sir :

I am in receipt of yours of June 2nd asking for copies of the four articles mentioned in the enclosure as having appeared in the Philosophical Review. There has since been an article entitled "Kant's Relation to Utilitarianism" by Norman Wilde. It appeared in the May number of the Review. I have instructed the publishers, Messrs. Ginn & Co., of Boston, to forward you the four numbers of the Review containing these five articles. It gives me much pleasure to put into the hands of so eminent a Kant scholar these copies of our Review.

Very sincerely yours,

J. G. Schurman
