Ithaca, New York,

Dr. Hans Vaihinger,

My dear Sir:

Apr. 13, 1892.

I am in receipt of your letter of the 15th ult. of March, and regret that you cannot undertake the Kantian Bibliography for the Review. I am glad to hear however that you are making such rapid progress on your valuable commentary on Kant, whose first volume I appreciate very highly.

Should there at any time occur to you a subject on which you would be willing to write for the Review, we should be most happy to receive an article from your pen.

I thank you for the suggestion of the name of Herr Dr. Adicke.

Very sincerely yours,

J. G. Schurman
