Professor W Vaihinger,
Halle, Germany

My dear Professor Vaihinger:

Your kind letter
arriving was received just as
I returned from Chicago where
I had been lecturing during the
summer term of the University.
It was some little time be-
fore I could see Miss Butler,
who was then absent on her
vacation. Will you not ac-
cept this explanation in ex-
cuse for my delay?

I think that some account
of Miss Butler's views would
interest you and your readers.
And she has consented to pre-
pare an abstract of her posi-

and American work in the interpretation and criticism of Kant.

I share in your desire that we may meet at some time in the near future; and why should it not be on American as well as on German ground? In the summer of '92 I lectured on philosophy in Japan and I am now hoping to visit West. country again in the Fall of '99 and to return home through Europe the following winter and summer.

Faithfully and sincerely yours,

George Torumbull Ladd

tion which, when it is brought
to me, I will gladly read through.
I have ventured to ask her to
make this abstract rather full,
and if it should be more
lengthy than you wish to
publish, I think you may
feel free to reduce its size
so as to suit the purposes
of your "Studien".

I am very glad to learn
of the pleasure you have had
in Dr Buchner's society. He
seems to me a very promising
young student of philosophy.
Perhaps he informed you that
he is to give (privat-docent
position) a course of lectures
on the historical development
of the Kantian System, which
will supplement my lectures
