Prof. Dr. Vaihinger,
Halle a S.,

Dear Professor Vaihinger;

According to your request for material in behalf of the "Kantstudien" I have asked Dr Buchner to prepare a notice of a work of mine just published on the "Philosophy of Knowledge", so far as this work interprets and criticizes the positions of Kant.

I enclose a notice of a Kant "Seminar" which I expect to hold through next

year, with a class of graduate students of philosophy. A similar Sminary this year has had some twenty-five members, engaged in the study of the "Kritik der reinen Vernunft."

Several pieces of work in preparation of Kantiana for doctor theses are already given out, and should they seem worthy, when finished I will take the liberty to call your attention to them.

Yours,

Sincerely yours,

George Trumbull Ladd
